# Servosys Corporate Lending

## Connected End to End

Financial institutions can effortlessly migrate from legacy lending systems to a connected, unified, and configurable platform built to streamline every stage of corporate loan origination.

### Faster Borrower Evaluation

Standardise borrower assessments through Digital CAM, financial analysis, scorecards, and collateral evaluation for faster appraisals.

### Portfolio Management

Strengthen portfolio oversight through collateral management, covenant monitoring, financial spreading, and structured borrower obligation tracking.

### BRE-Driven Approvals

Embed lending policies into configurable rules, eligibility criteria, and automated underwriting for faster approval decisions.

### Stronger Governance

Digitise post-sanction activities through eSign, eStamp, document verification, limit setup, and structured execution controls.

### Integrated Ecosystem

Connect core banking, credit bureaus, CRM, ERP, and third-party services through open APIs for a more controlled lending.

### 360° Process Visibility

Give decision-makers real-time insight into SLA adherence, bottlenecks, process performance, and timely intervention opportunities.

### The Operational Barriers to Simpler Corporate Lending

- Slow and complex credit approval journeys
- Manual credit appraisal and underwriting
- Limited visibility across borrowers, exposure, and collateral
- Inconsistent credit decisions and governance
- High operational costs and margin pressure
- Regulatory compliance and audit complexity

# Simplifying Diverse Lending Operations Through One Platform.

Corporate lending extends beyond loan origination. Servosys brings specialised lending journeys onto one configurable platform, adapting processes to distinct operational and financing requirements.

## Corporate Customer Onboarding

Streamline borrower onboarding through configurable journeys covering due diligence, verification, documentation, and account creation for faster, compliant customer readiness.

## Construction Finance

Manage milestone-based construction finance with structured project monitoring, controlled disbursements, and visibility into progress and fund utilisation.

## Project Monitoring

Maintain oversight of financed projects through continuous milestone, timeline, and compliance tracking, helping lenders identify risks and act early.

## Term Loans

Accelerate term-loan processing through structured appraisal, configurable approvals, and consistent controls for high-value financing and strategic business investments.

## Working Capital

Simplify working-capital lending with structured assessments and streamlined origination that support faster decisions while maintaining prudent credit discipline.

## Dealer Finance

Enable dealer financing programs through centralised onboarding, structured financing workflows, and portfolio oversight across manufacturer and distributor networks.
